Keep our seat in the world game.

Meet the world standard.

Files the 15 documents	Needs 60 federations to pass	Recognised by the IOC	Where table soccer is headed

WHAT WE'RE DOING

One file, for every country. Every national federation files the same 15 governance documents.

A gap review first, against all 15, then we write what's missing.

What we're writing. Codes of ethics and conduct, gender equality and sustainability policies, anti-doping and competition-manipulation rules, and a governance self-assessment.

By the book. A general assembly and elections under our bylaws, and audited financial statements.

WHY WE'RE DOING IT

AIMS is the IOC-recognised alliance table soccer is working to join. The ITSF says a complete file will be essential for keeping its membership. Spain, Germany and Luxembourg have passed the first stage. The US hasn't yet.

THE TARGET

2027
the file goes to the ITSF, in summer

2028
validated, by the end of the year
