Para and Unified foosball.

Everyone plays.

WHAT WE'RE DOING

Para. With adaptive sports centers and VA sites, we're building competition under the ITSF's wheelchair rules.

A first US para championship, held alongside a big event, then a US team at the next ITSF para event.

Unified doubles. Special Olympics Unified Sports puts athletes with and without intellectual disabilities on one team. We'll start in school clubs that are already Unified Champion Schools.

At every championship, a para and a Unified division, and accessible play welcomed at every club.

WHY WE'RE DOING IT

We looked for organized para and Unified foosball in the United States and found none. Foosball is hands, eyes and timing, and doubles puts two players side by side. It's made for this.

BY THE END OF 2028

50
para athletes

300
Unified pairs

Let's start one together.

Run a VA site, an adaptive sports center or a Unified school? Email Jim Provost, President of USA Foosball.

THE WHOLE PLAN

USA Foosball is the United States Table Soccer Organization (USTSO), the national federation for foosball. This is one of its six initiatives; read them all at usafoosball.com/plans/initiatives.
